

## Custom Cast Iron Hydraulic Cylinder Clevis Mount Cylinder End Mount For Truck Crane Forklift

Our Product Introduction

for more products please visit us on [greycastironcasting.com](http://greycastironcasting.com)

### Basic Information

- Place of Origin: Ningbo China
- Brand Name: NC87
- Certification: ISO9001
- Model Number: 87
- Minimum Order Quantity: 1 pcs
- Packaging Details: Woodn Case
- Delivery Time: 25 days
- Payment Terms: L/C, T/T
- Supply Ability: 80,000 pcs per month

### Product Specification

- Tolerance Grade: 4
- Pressure Chamber Structure: Vertical
- Casting Surface Quality Level: 3
- Certification: CE, ISO 9001:2000
- Transport Package: Polywood Case
- HS Code: 8483409000
- Process: Iron Casting
- Machining: CNC
- Highlight: Hydraulic Cylinder custom cast iron casting, Clevis Mount Cylinder cast iron casting, End Mount custom cast iron casting

## Product Description

### Custom Cast Iron Hydraulic Cylinder Clevis Mount Cylinder End Mount For Truck Crane Forklift

#### Application

A hydraulic cylinder (also called a linear hydraulic motor) is a mechanical actuator that is used to give a unidirectional force through a unidirectional stroke. It has many applications, like engineering machinery, lifting and conveying machinery, mining machinery, metallurgical machinery and other machinery. Rod end boots, bumper or hydraulic lock is optional.

#### Factory Information

Sunrise Foundry has been producing various ductile iron (nodular iron) Casting parts for Construction and Mine Machinery.

The main products include iron bracket, hydraulic cylinder head, cylinder parts, and various hydraulic car brackets and supports.

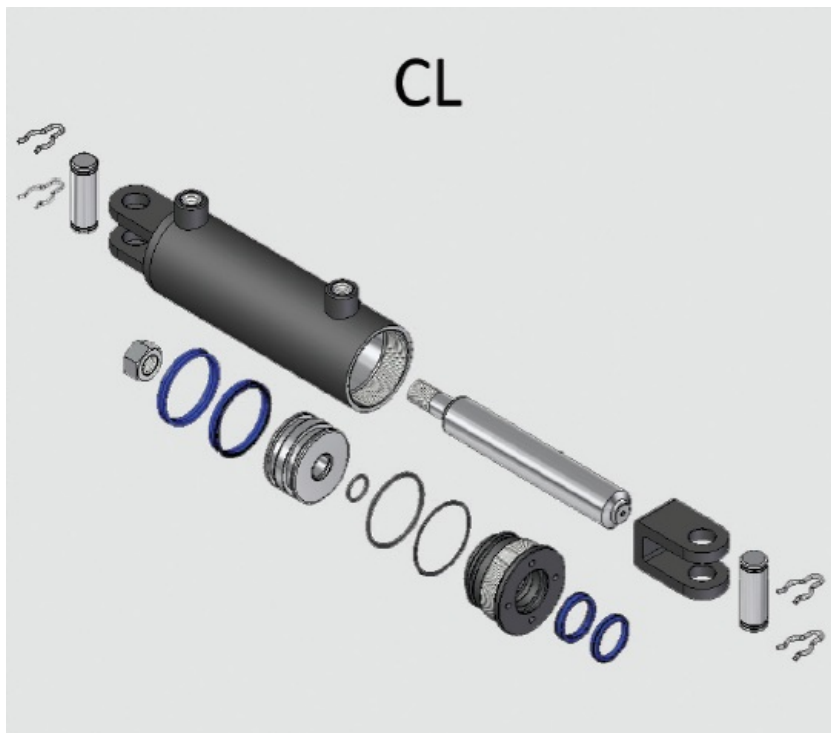

#### Features

- 1) Simple structure in linear type, easy in installation and maintain.
- 2) Adopting advanced components in pneumatic parts, electric parts and operation parts.
- 3) High pressure double crank to control the die opening and closing.
- 4) Running in a high automation, no pollution.
- 5) Apply a linker to connect with the air conveyor, which can directly inline with filling machine.

#### Product Details

Material:	Cast Iron GG20
Process:	Sand Casting + CNC Machining
Equipment	Used for industrial and mining machines
Packing:	As per customer's request
Heat Treatments:	Normalizing, Quenching, Tempering and Annealing
Quality Certifications:	ISO 9001:2015
Competitive Advantages:	Big customer long-term corporation experience Strictly quality control and timely delivery guaranteed
OEM Service are Accepted	Trial or small orders are accepted

#### **Our Service**

We can build, supply new cylinders for Earth Moving, Marine, Press, Crane, Telescopic, Shear, Excavator and Chip Dump applications. We also have the capabilities, experience, and technical knowledge to manufacture new cylinders and custom build cylinders. We can handle any hydraulic cylinder needs from smaller application cylinders to very large cylinders (for example cylinders on large mining equipment). Contact us for pricing and availability or if you're needing a custom built cylinder.

#### **Our Advantages**

We have more than 25 years experience in Hydraulic Cylinder Components  
 Excellent quality control is one of our main principles.  
 Various style for each products and completely series pneumatic and hydraulic products for you to choose.  
 Sample order & small quantity order is OK  
 We provide OEM service, accept customer label, develop the product with your drawings or samples  
 Any question, will be replied within 24 hours.

#### **Packing**

First put one product into thick plastic bag; second each will be put into one export standard box with packing belt; third suitable boxes will be put into one metal cage to protect the goods during shipping.
