

Cast Steel Scaffolding Accessories Hex Coupling Nut Hex Coupler For Reinforcement Bar

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Ningbo China
- Brand Name: NC19
- Certification: ISO 9001
- Model Number: 19
- Minimum Order Quantity: 1 pcs
- Packaging Details: Wooden Case
- Delivery Time: 25-30 days
- Payment Terms: L/C, T/T
- Supply Ability: 150,000 pcs per month

Product Specification

- Name: Hex Coupling Nuts
- Material: Carbon Steel
- Grade: 4.8/ 6.8/ 8.8/ 10.9/ 12.9
- Finish: Zinc White
- Standard: DIN, DIN,ASTM,BS,JS,GB,EN,
- Highlight: scaffolding fittings, scaffolding parts

Product Description

Cast Steel Scaffolding Accessories Hex Coupling Nut Hex Coupler For Reinforcement Bar

Description

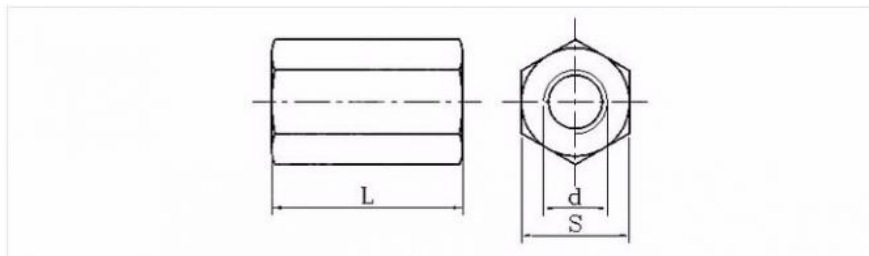

What is Coupling Nut: A coupling nut is a threaded fastener for joining two male threads, used frequently in threaded rod. The outside of the fastener is usually a hex so a wrench can hold it. Coupling nuts are internally threaded nuts in extended lengths. Used with threaded rod, the coupling nut joins 2 piece of threaded rod together from opposing ends for hanging various items either vertically or horizontally. Generally hand tightened. Available in various diameters and lengths.

Our Factory

We are the manufacturer of formwork parts and scaffolding accessories in China. We mainly supply wing nuts, tie rod, water stop, hex. nuts, bar couplers, rapid clamps, frame formwork clamps, jack base, U head jack, prop nuts, prop sleeves, and other scaffolding fittings.

Product Details

Product Name	hexagon coupling nuts / hex coupler / hex coupling nuts
Material	carbon steel
Color	zinc white
Standard	DIN GB ISO JIS BA ANSI
Grade	SUS201, SUS304, SUS316, A2-70, A2-80, A4-80, 4.8 6.8 8.8 10.9 12.9
Thread	coarse, fine
Application	building industry machinery

	mm

M10*17*35	10	17	35
M10*17*40	10	17	40
M10*17*45	10	17	45

Our Advantages

We are a professional manufacturer and have over 25 years production and management experience in the field of metal fasteners. Our factory is now also ISO 9001 certified. We not only provide you with high quality products, but also are your industrial fastener solution supplier. We can provide our customers with a good solution in the area of production design, production process, packaging and after-sale service. Customer satisfaction is our sole pursuit.

FAQ

How long can I expect to get the customized sample?

After you pay the sample charge and send us confirmed files, and the mould is existing in our factory, the samples will be ready in 10-15 working days;

If the mould is not existing, we need to open a new mould, the samples will be ready in 15-18 working days; The samples will be sent to you via express and arrive in 3-5 working days. You can use your own express account number or prepay us if you do not have an account.

What about the lead time for mass production?

Honestly, it largely depends on the order quantity and the season when you place the order. As usual, 20-35 working days will be OK. If you are very urgent, we will try our best to do it.
