

Iron Casting Scaffolding Fittings Rock Bolt Expansion Anchor With Expansion Shell

Our Product Introduction

Basic Information

- Place of Origin: Ningbo China
- Brand Name: NC19
- Certification: ISO 9001
- Model Number: 19
- Minimum Order Quantity: 1 pcs
- Packaging Details: Wooden Case
- Delivery Time: 35 days
- Payment Terms: T/T, L/C
- Supply Ability: 160,000 pcs per month

Product Specification

- Material: Cast Iron
- Production Process: Sand Casting
- Finish: Sand Blasting
- Diameter: 32~35, 35~38, 42~45 Mm
- Service: OEM
- Highlight: **post tension accessories, prestressed anchorage**

Product Description

Iron Casting Scaffolding Fittings Rock Bolt Expansion Anchor With Expansion Shell

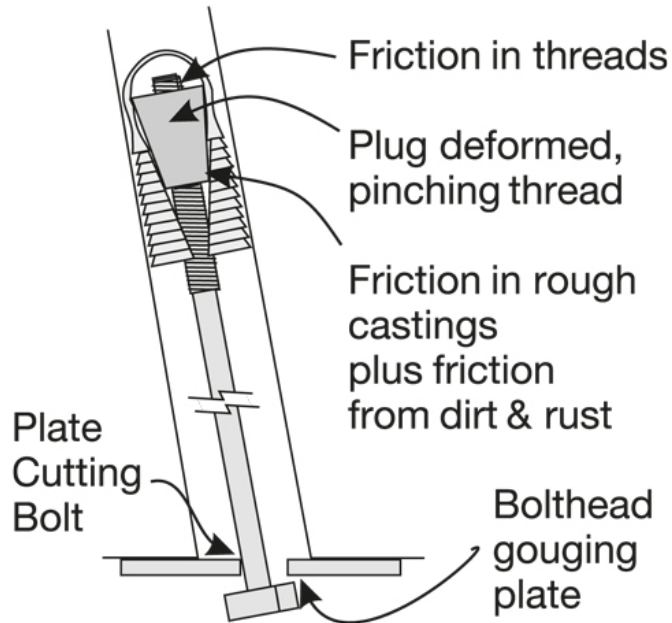

Application

Expansion shells are used for fixing single-sided shuttering or similar structures in rock, concrete or comparable load-bearing ground. The expansion shells hold in any rock strata which is sufficiently competent to provide an adequate anchorage. They are designed to anchor in soft ground or hard rock. In good strata the anchorage exceeds the ultimate strength of the steel bolt. All expansion shells require a competent strata in the anchor zone. The suitability of the anchorage and the specific expansion shell to be used is best determined by physical load testing. The expansion shells feature parallel contact with the hole wall with sharp serrations on the outside leaves ensure positive holding power.

About Our Factory

We have been supplying wing nuts, tie rod, water stop, hex. nuts, bar couplers, rapid clamps, frame formwork clamps, jack base, U head jack, prop nuts, prop sleeves, and other scaffolding fittings for more than 25 years.

The consist of Expansion Shell and how it works

Product Details

| | |
|--------------|--------------------------------|
| Product Name | Rock Bolt with Expansion Shell |
| Type (Size) | 32mm, 35mm, 38mm, 42mm, 48mm |
| Material | Cast Iron |
| Finish | Sand Blasting |
| weight | 0.3-0.6KG etc. |

Related Products

Expansion shell, rock bolt, bearing plate, washer, mechanical bolt, coupling bolt.

Our Advantages

1. Our factory has been making mining and building accessories for more than 25 years.
2. We are manufacturer. Direct communication with our engineer.
3. We can forging and casting parts as per your drawing and technical requirements.
4. Quality certificate: SGS ISO9001, TS16949, CE.
5. All of our parts are 100% inspection.
6. The price is very reasonable with superior quality.
