## Product Description

### EN124 D400 Cast Iron Manhole Cover Double Sealed Triangular Ductile Iron Manhole Cover And Frame

#### Product Description

Manhole cover is a removable plate forming the lid over the opening of a manhole, to prevent anyone or anything from falling in, and to keep out unauthorized persons and material.

En124 D400 is designed to support medium traffic. It is perfect for installing on roads with an ADT of 1.000-20.000, particularly road carriageways (including pedestrian streets), stabilized hard shoulders and parking areas for all manner of vehicles.

One end is inserted to guarantee perfect placement.

Weight or security screw closure (optional)

Sound-proof joint included.

Groove to facilitate the opening process.

Frame fitted with holes for fastening to the ground.

Metal non-slip surface.

Coated with non-toxic, non-flammable and non-polluting water-soluble black paint.

#### About Us

We are one of the leading manufacturers of ductile iron pipe, pipe fittings, dismantling joints, flange adapters, couplings, valves, water meter, manhole covers, steel flanges, steel pipe, steel pipe fitting, rubber O-rings, motor shells, castings for water, sewer, drainage, telecommunications pipeline and industrial castings, other iron castings, stainless steel casting, steel castings.
