Product Description

Lockable Ductile Iron Manhole Cover Sewer Main Hole Cover For Road Drainage

Description

Sewer manhole cover is light duty round manhole cover. And the gasket inserted in the throat, which is in the supporting area, with this rubber waterproof seal, so the manhole cover is watertight.

You can open the cover with specific handle to insert in the hole of the lock of the lid, lift up the lid. It is also anti theft.

The outside edge of the frame is the shape of channel, can provide an hydraulic manhole cover.

If it is filled with sand, tar or other materials, or the whole structure is hold in the cement or anchoring bolts in the holes around the frame, the manhole frame and cover will insert into the materials steadily.

On surface of the lid has two dead holes, which allows the insertion of suitable handles to lift the manhole cover.

Features of our manhole cover

1. Free design---Such as Color, Logo, Panel, Load and Dimension can be designed according to the requirements of customer.
2. Long life ---Minimum lifespan is 30 years free of maintenance.
3. Well sealed ---It can be installed hermetically, and effectively prevent poisonous gases leaking out from cesspool. and no noise pollution or rebound.
4. Good wear and corrosion resistance ---It will never rust because it has good wear and corrosion resistance.
5. High and low temperature resistance ---Excellent insulator (from-40°C~200°C)
6. Competitive price
