

# Heat - Treatment Resin Sand Casting / Gray Iron Casting For Textile **Equipment**

## Basic Information

. Place of Origin: Ningbo, China NC819 . Brand Name: ISO9001,CE · Certification:

Model Number: 819 • Minimum Order Quantity: 100 pcs • Price: \$1-50

Packaging Details: Wooden Case • Delivery Time: 25 days Payment Terms: T/T, L/C

60,000 pcs per month . Supply Ability:

### **Product Specification**

Ductile Iron Material:

· Application: Textile Equipment Sand Casting • Process: • Surface: Sandblasting As Per Drawing · Size: · Color: Black Or Grey

Highlight: cast iron sand casting, resin sand casting

### **Product Description**

#### **Ductile Iron Textile Equipment Casting Textile Machinery Parts**

#### **Factory Information**

Welcome to Sunrise Foundry. We're dedicated to High quality ferrous & Non-ferrous, investment casting/Precision Casting/ Lost Wax Castings in Steel, Aluminum and Copper alloys for aerospace, defense, transportation, medical, electronics, heating and precision Engineering applications

#### Description

Forging part CNC machining Fabricated part CNC machining OEM processing of all kinds of metal parts  Grey cast iron Ductile iron Chrome steel Carbon steel  GB ASTM BS Production ISO Standard: DIN JIS ASME ANSI  Sand casting CNC machining CNC machining CNC milling and boring compound processing ONC milling and boring compound processing Jeriling Grinding Heat-treatment  Polishing Painting Anodizing Surface Sand blasting Chrome plating Mirror polishing Sample: 25-40 days		
roduct range:  Casting part CNC machining Forging part CNC machining Fabricated part CNC machining OEM processing of all kinds of metal parts  Grey cast iron Ductile iron Chrome steel Carbon steel GB ASTM BS Production ISO Standard: DIN JIS ASME ANSI  Sand casting CNC machining CNC milling and boring compound processing 3/4/5 axis CNC milling Drilling Grinding Heat-treatment  Polishing Painting Anodizing Surface Sand blasting Chrome plating Mirror polishing Mirror polishing Sample: 25-40 days	roduct range:

#### **Our Advantages**

Advanced international casting technology Sophisticated machine equipments According to customer need to order specification OEM quality standard guaranteed Standard material according to technical drawing Long manufacture and exporting history Positive customer feedback from abroad and domestic

### Quality— quality insurance

Details technical review process ensure our engineering understand the drawings and spec, we can provide the material testing report for every batch production parts. control plan, showing processing and inspection tooling; — quality control Workers will inspect in their own process, 100% inspection for all dimensions before deliver goods.

#### Price—competitive price

Reasonable and competitive according to your drawings. Continues improvement and eliminate waste in each process. Very glad to work with supplier on the price reduction ideas and activities.

#### Delivery Time— short delivery time

We have professional R&D team, advanced equipment, skilled workers, which can bring high working efficiency. Project management system to show the project/order status every week. **Customer Service**
