

Underground Mining Roof Bolting Expansion Shell Anchor / Rock Anchor Bolts

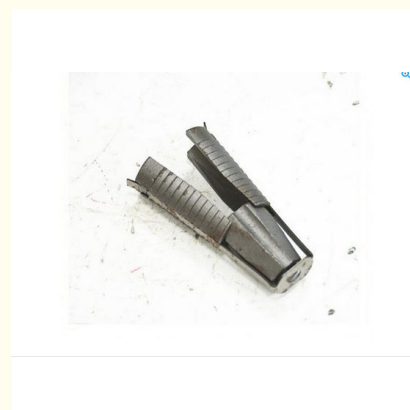

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC641
- Certification: ISO9001,CE.SGS
- Model Number: 641
- Minimum Order Quantity: 100 pcs
- Price: \$1-50
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs monthly

Product Specification

- Type: Expansion Anchor
- Diameter: 30-45mm
- Application: Tunnel/Construction
- Process: Casting
- Length: 50-105mm
- Surface Treatment: Plain/HDG/EG
- Highlight: **post tension accessories, prestressed anchorage**

Product Description

Underground Mining Roof Support & Mining Roof Bolting Expansion Shell Rock Bolt Anchor

Description

The expansion shells are designed to be used for roof support in mining and tunneling areas (underground). Easy to use in conjunction with the corresponding threaded rod with a continuous coarse thread, anchor plate and anchor nut.

Expansion shells hold in any rock strata which is sufficiently competent to provide an adequate anchorage.

They are designed to anchor in soft ground or hard rock.

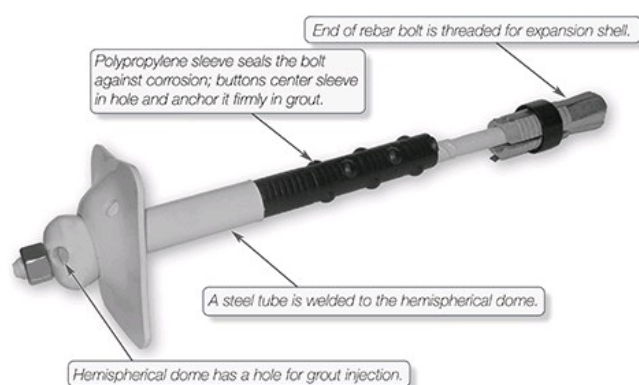

In good strata the anchorage exceeds the ultimate strength of the steel bolt.

All expansion shells require a competent strata in the anchor zone.

The suitability of the anchorage and the specific expansion shell to be used is best determined by physical load testing.

Product Details

Product Name	Rock Bolt with Expansion Shell
Type (Size)	32mm, 35mm, 38mm, 42mm, 48mm
Material	Cast Iron
Finish	Sand Blasting
weight	0.3-0.6KG etc.

Our Advantage

1. Rich production experience and very professional
2. Provide customers with one-stop solution and purchasing requirements
3. Complete production process and products
4. Design and recommend suitable products for customers
5. Cheap price, high quality, fast delivery time
6. Accept small orders
7. Credit security
8. Communicate well with customers, quick reply and quote

FAQ

How long can I expect to get the customized sample?

After you pay the sample charge and send us confirmed files, and the mould is existing in our factory, the samples will be ready in 10-15 working days;

If the mould is not existing, we need to open a new mould, the samples will be ready in 15-18 working days; The samples will be sent to you via express and arrive in 3-5 working days. You can use your own express account number or prepay us if you do not have an account.

What about the lead time for mass production?

Honestly, it largely depends on the order quantity and the season when you place the order. As usual, 20-35 working days will be OK. If you are very urgent, we will try our best to do it.
