

Galvanized Scaffolding Replacement Parts Forged Cuplock Ledger Blade For Building Materials

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC612
- Certification: ISO9001,CE,SGS
- Model Number: 612
- Minimum Order Quantity: 1000 pcs
- Price: Can talk
- Packaging Details: Customized
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 150,000 pcs monthly

Product Specification

- Name: Cuplock Ledger Blade
- Material: Q235
- Size: 48.3*3.0mm, 48.3*3.2mm, Etc.
- Length: 0.5m, 1m, 1.5, 2m, 2.5m, Etc.
- Standard: EN74/BS1139/AS1576
- Surface Treatment: Painting And Galvanized
- Highlight: scaffolding fittings, formwork accessories

Product Description

Scaffolding System Accessories Forged Cuplock Ledger Blade for Building Materials

Product Details

Material	Q235 steel
Dimensions	0.192kg, or as your demands
Surface	raw,HDG/galvanized, or as your request
Standard	JIS,AS1576,ISO9001:2008
Feature	Skidproof, Autirust, High Breaking Strength,Durable, easy to assemble & dismantle
Note	OEM service is available
MOQ	1000pieces
Package	woven bags or plywood box, or as your request
Payment Terms	TT,L/C, we can contact in detail
Delivery Time	20-30days

Features

- High strength welded cuplock scaffolding system is Q235 steel tubular scaffolding which can bear about 16 tons per set.
- The surface of cuplock vertical and horizontal are full hot dip galvanized which is an efficient method to prevent rustiness and corrosion.
- This steel scaffolding system is made of steel tube, cups and blades, which are precision drop forged.
- The cups with gears can prevent the ledgers moving so that the whole system are stable without shaking
- Verticals and horizontals can be combined at many angles in horizontal level so that cuplock is perfect for arc shape building construction.

About Us

Our company engaged in producing construction products such as scaffolding and formwork accessories. We have casting and forging workshop. Factory equipped laboratories, chemical composition, metallurgical structure, hardness, compressive strength, yield strength and elongation for testing.

FAQ

Q: How long is your delivery time?

A: Generally it is 5-10 days if the goods are in stock. or it is 15-20 days if the goods are not in stock, it is according to quantity.

Q: Do you provide samples ? is it free or extra ?

A: Yes, we could offer the sample for free charge but do not pay the cost of freight.
