

Corrosion Resistant Scaffolding Parts Casting Ringlock Ledger Head For Building

Our Product Introduction

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC362
- Certification: ISO9001,CE,SGS
- Model Number: 362
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 90,000 pcs monthly

Product Specification

- Item Name: Ring Lock Ledger Head
- Material: Casting Steel
- Weight: 0.32kg/0.375kg/0.435kg/0.50kg/0.51kg/0.54kg
- Size: 48.3MM
- Color: Self Color,galvanized
- Application: Building
- OEM: Available
- Highlight: scaffolding fittings, formwork accessories

Product Description

Corrosion Resistant Scaffolding Ringlock Casting Parts Ledger Head

Product Details

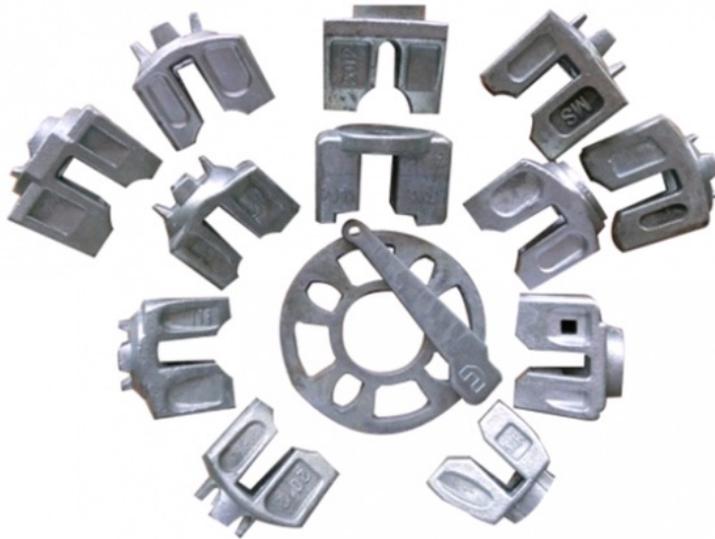

Ringlock Scaffolding System Include:Vertical pipe.Horizontal pipe.Diagonal Brace.Screw Jack.
Workboard.Stair System and guard safe parts.It can be used for building protection.formwork support and building face decoration.

Feature

Can be quickly erected,just need a hammer to erect,save labour cost.
Convenient transportation and storage.
Low maintenances,The hot dip galvanized finish will last for a long life.
No more rust or corrosion,even it can be stored externally.

Specification

Material	Casting steel 35#	Casting steel 35#	Casting steel 35#	Casting steel 35#
Used	For ring lock scaffolding system Connection			
Tube dia	48.3mm	48.3mm	48.3mm	48.3mm
Weight	0.49kg	0.49kg	0.31kg	0.35kg
Surface treatment	Natural,Electro galvanized,HDG	Natural,Electro galvanized,HDG	Natural,Electro galvanized,HDG	Natural,Electro galvanized,HDG
Craft	Casted steel	Casted steel	Casted steel	Casted steel

Product Application

Widely used in viaducts and other bridge engineering, tunnel engineering, plant, elevated water towers, power plants, refineries, large concert stage, background frame, stands, viewing platform, modeling rack, staircase system, party stage, sports competition As well as the support of special plant design.

USED FOR CONSTRUCTION BUILDING

The construction site for the workers to operate and solve the vertical and horizontal transport of all kinds of support. The general term in the architectural field refers to a place where the construction site is used in exterior walls, interior decorations, or high levels of height that cannot be directly constructed. Mainly for construction personnel working or peripheral safety net enclosure and high altitude installation components, etc.

FAQ
