## Product Description

### Prestressed Concrete BM13-3 Post Tension Casting Iron Flat Slab Anchorage

#### Product Description

The anchoring system of spheroidal graphite cast iron integrated anchor is designed for unbonded PC strand based on the application of PC strand anchorage in recent 20 years in China. Its feature is that the anchorage at the tension end adopts the spheroidal graphite to integrate the bearing plate and anchor head. It has compact structure and reliable anchoring. Its performance meets the national requirements of GB/t14370-2000, and it is also applicable to 2000MPa PC strand. In addition, the biggest advantage of the anchoring system is that the full length of PC strand can be fully sealed.
