Product Details

Product Name	Rock Bolt, Expansion Shell, Expansion Shell Anchor
Type (Size)	32mm, 35mm, 38mm, 42mm, 48mm
Material	Cast Iron
Finish	Sand Blasting
weight	0.3-0.6KG etc.

Application

In addition to the use of chemical anchoring material to obtain the pre-stressing of rock bolt, the mechanical expansion shell with easier installation and high performance of anchor loading is also one of the bolting solutions on site. In particular, if water mergers after bore holing of rock bolt, an expansion shell can be attached onto a full-threaded rock bolt, which is then placed at the required depth of borehole and rotated by a drill machine or hand-held hammer in order to obtain immediate loading capacity for anchoring.
