

Mining Roof Bolts Roof Bolts For Resin Anchoring

Our Product Introduction

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC6573
- Certification: ISO9001,CE,SGS
- Model Number: 6573
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 35 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs monthly

Product Specification

- Part Name: Mining Roof Bolts
- Production Process: Casting, Stamping, CNC Machining, Welding
- Application: Mining
- Diameter: 35-38mm
- OEM: Available
- QC: 100%

Product Description

Mining Roof Bolts Roof Bolts For Resin Anchoring

Product Details

OEM	Accept OEM
Length	115mm
Keyword	Mining Roof Bolt
Port	Ningbo
Delivery time	30-45 Days
Package	Carton & bubble bags etc
Process	Casting, Stamping, Cnc Machining, Milling, Turning

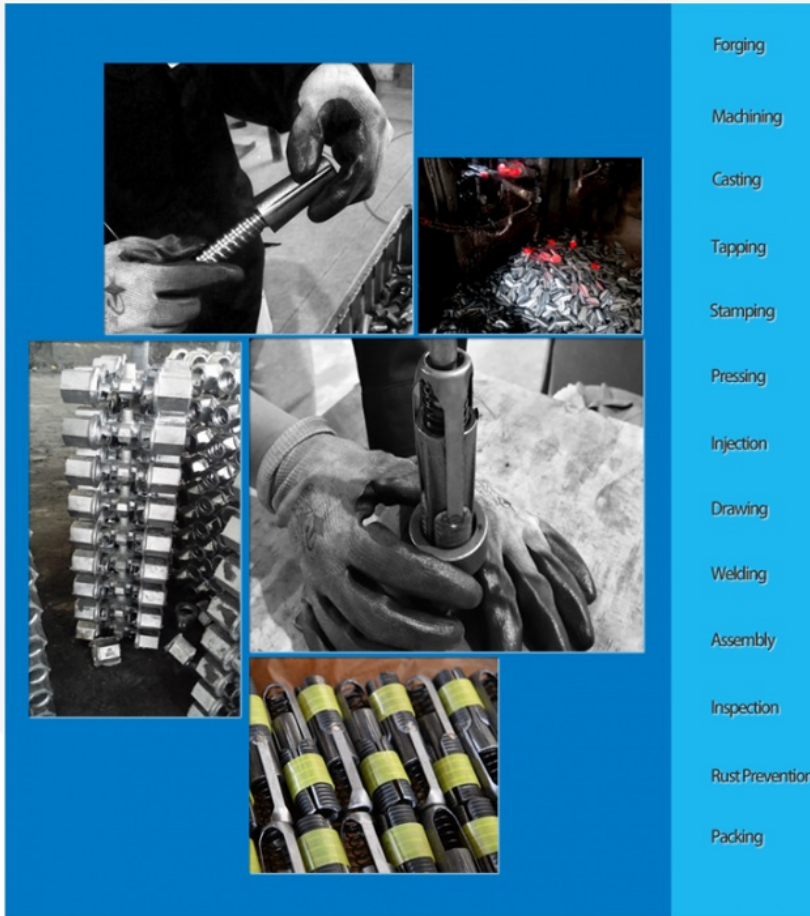

Application

Expansion shells are used for fixing single-sided shuttering or similar structures in rock, concrete or comparable load-bearing ground. The expansion shells hold in any rock strata which is sufficiently competent to provide an adequate anchorage. They are designed to anchor in soft ground or hard rock. In good strata the anchorage exceeds the ultimate strength of the steel bolt. All expansion shells require a competent strata in the anchor zone. The suitability of the anchorage and the specific expansion shell to be used is best determined by physical load testing. The expansion shells feature parallel contact with the hole wall with sharp serration's on the outside leaves ensure positive holding power.

FAQ

Q1: When can I get the price?

A1: We usually quote within 24 hours after we get your inquiry. If you are very urgent to get the price, please tell us in your email so that we will regard your inquiry priority.

Q2: What about the lead time for the mass production?

A2: Honestly, it depends on the order quantity and the season you place the order.

Q3: Can I get a discount?

A3: Yes, for the big order size, please contact us to get the best price.

Q4: Do you inspect the finished products?

A4: Yes, each step of production and finished products will be inspected by QC department before shipping.
