

Lost Wax Precision Stainless Steel Casting Fuel Injector

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC9873
- Certification: ISO9001,CE,SGS
- Model Number: 9873
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Standard
- Delivery Time: 30-35 days
- Payment Terms: T/T, L/C
- Supply Ability: 50,000 pcs per month

Product Specification

- Item Name: Fuel Injector
- Material: Stainless Steel
- Process: Precision Investment Casting
- Finish: Sandblasting
- Color: Natural
- Service: OEM ODM
- Tolerance: Customized

Product Description

Lost Wax Precision Stainless Steel Casting Fuel Injector

Product Details

Material	Carbon Steel, Alloy Steel, Stainless Steel, Aluminum, Copper
Application	Auto
Surface treatment	Polish, powder coating, lacquer coating, e-coating, shot blast
Heat Treatment	Annealing, Normalizing, Hardening, Tempering
Technology	Lost wax casting + CNC machining
Size	Customer's Drawing Required
Package	Small Packing+Carton Packing+Pallet
Lead Time	15-35 Days
Quality Control	100% Inspection

Production Process

1.Wax Injection

2.Shell Coating

3.Shell Drying

4.Dewaxing

5.Shell Roasting

6.Pouring

7.Grinding

8.Repair

9.Shot Blasting

10.CNC Machining

11. 3D Inspection

12.Packing

About Us

Sunrise Foundry, recognize as an expert in the production of investment casting and CNC machining where we specialize in OEM parts of metal castings.

We can offer you comprehensive range and in tight tolerance of products to meet all of your needs and at a price that is guaranteed to fit your budget.

Our Service

- 1,High precision of casting, good surface finish, can eliminate or reduce machining, save material and processing cost.
- 2,Can produce parts with complex shapes,or cast multiple parts into one, leaving out the combination or welding work.
- 3,You can create beautiful words and patterns on the product to show your company and product image.
- 4,Materials are not restricted, and various alloy materials can be supplied according to the requirements of customers.
- 5,High production efficiency, good repeatability and easy to achieve mass production.

FAQ

How can I get some samples?

If you need, we are glad to offer you free samples, but customer are expected to pay tooling charge for new design product, and the cost will be deducted for mass production.

Can you make casting according to our drawing?

Yes, we can make casting according to your drawing, 2D drawing, or 3D CAD model. It would be better if 3D CAD model can be shared,so that we can design moulds more efficient.

Can you make casting based on our samples?

Yes, we can make measurement based on your samples to make drawings for tooling making.
