

Steel Precision Casting Auto Vehicle Control Arm Part For Car Suspension System

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC6352
- Certification: ISO9001,CE,SGS
- Model Number: 6352
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 35 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

Product Specification

- Item Name: Auto Vehicle Control Arm
- Material: Steel
- Application: Car Suspension System
- Process: Precision Investment Casting
- Surface Finish: Polish Finish Or Powder Coated
- Standard: ISO9001 Certified

Product Description

Steel Precision Casting Auto Vehicle Control Arm Part For Car Suspension System

Product Detail

| | |
|-------------------|--|
| Material | Stainless steel, carbon steel, alloy steel, iron, copper, aluminum, copper alloy, aluminum alloy, zinc alloy |
| Surface treatment | zinc plating, brushing, pickling, sand blasting, mirror polishing |
| Payment terms | L/C, T/T, Western Union |
| Certificate | CE, RoHS, ISO9001 |
| Package | 1. Packing synthetic investment casting tape with carton inside, then packing the carton with wooden pallet or crate. 2. As your request. |

About Us

Sunrise Foundry is a professional Metal Foundry, located in Ningbo. We have been producing Gray Iron, Ductile Iron Castings and any other precision castings for more than 25 years.

Material includes stainless steel (304, 304L, 316, 316L, 326L), carbon steel (1025, 1035, 1045).

Our metal parts covers 1000 kinds, they are widely used, industry includes: auto car parts, truck, train and fire truck, pumps and valves and building hardware etc.

Products have ISO9001:2008 and TS16949 certification, based on standards of AISI, ATSM, UNI, BS, DIN, JIS, GB etc. We have complete casting production equipment, machining equipment and advanced testing equipment to meet the full range of product and performance testing needs.

How to order

1. Drawings

Please provide engineered drawings and specifications of the parts you are requesting. Drawing files should be sent to our email. (See the picture below).

2. Quantities

Include both quantities for the initial run and long-term estimates.

3. Estimated weight

Weight estimates are used to calculate costs for sourcing materials, processing and shipping. Inaccurate estimates may lead to discrepancies between estimated and actual costs.

4. Secondary processing

Unless otherwise specified, prices are quoted for castings free of gates, risers and extra metal. Please indicate any secondary processing (machining, coatings, etc.) required.

5. Delivery details

Please provide information on when products will be required and the intended shipping destination; we can offer freight pricing directly to your location.
