

## Low Alloy Steel Precision Casting Tooth Plate Agricultural Machinery Parts

### Our Product Introduction

for more products please visit us on [greycastironcasting.com](http://greycastironcasting.com)

#### Basic Information

- Place of Origin: Mainland China
- Brand Name: NC8735
- Certification: ISO9001,CE,SGS
- Model Number: 8735
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

#### Product Specification

- Item Name: Tooth Plate
- Material: Alloy Steel
- Application: Agricultural Machinery Parts
- Standard: GB ASTM AISI DIN BS
- Service: OEM/ODM
- Finish: Anti-rust Oil

## Product Description

### Low Alloy Steel Precision Casting Tooth Plate Agricultural Machinery Parts

#### Product Details

Product Type:	Casting,CNC turning, milling, drilling,grinding,cutting.
Material:	304/316/2205/316l/904l stainless steel , carbon steel,alloy steel
Surface Treatment:	Anodizing,Sandblasting, Painting,Powder coating, Plating,Polishing
Dimension:	As per customer's drawing
Drawing Format:	Pro-E/UG/Solid Works
Testing Machine:	Digital Height Gauge,Caliper, Coordinate measuring,projection machine,CMM
Packing:	PP bag/EPE Foam/Carbon boxes/ plywood case
Trial sample:	10-15 days after sample confirmation.

#### Production Process

##### What is Silica Sol Investment Casting?

Silica sol investment casting and water glass are the two primary investment casting methods now days. The main differences are the surface roughness and cost of casting. Water glass method dewaxes into the high-temperature water, and the ceramic mold is made of water glass quartz sand. Silica sol method dewaxes into the flash fire, and silica sol zircon sand makes the ceramic mold. Silica sol method costs more but has the better surface than water glass method.

Advantages:

1. High dimensional accuracy,good surface and quality
2. Better corrosion resistance
3. Less failure rate

Silica Sol Investment Casting production line:

## Machining [See details >>](#)

### Quality Control

CMM

Tensile Test Machine

### FAQ

#### 1. What we can do for you ?

We can produce parts according to your drawings, sample, or even just a idea.  
Low price but high quality casting parts, cnc machining parts are now providing to all over the world.

#### 2. How will you control the quality of product ?

In addition to working according to ISO9001:2015 guide, We also have our own strict inspection system in our factory, every process will be inspected by advanced inspection equipment and veteran QC to make sure the products are qualified.

#### 3. What's your advantage ?

Low price but high quality products.  
Quick response, we can reply you in 24 hours ,no matter any question or need.  
Intimate service, always think for our customers.
