

Lost Wax Stainless Steel Casting Pipe Fittings for Auto Parts

Our Product Introduction

for more products please visit us on greycastironcasting.com

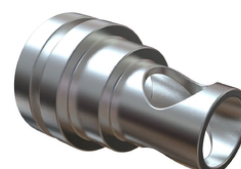

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC7635
- Certification: ISO9001,CE,SGS
- Model Number: 7635
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

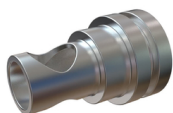

Product Specification

- Part Name: Pipe Fittings
- Application: Auto Parts
- Material: Stainless Steel
- Technology: Lost Wax Casting
- Surface Treatment: Pickling, Sandblasting And Machining
- Service: OEM

Product Description

Lost Wax Stainless Steel Casting Pipe Fittings for Auto Parts

Product Details

Material	Stainless steel, heat resistant steel, etc.
Technology	Lost Wax Casting
Standard	ASTM,JIS,DIN,GB.
Single weight	0.5Kg-100Kg
Dimensional	CT6--CT7(GB/T 6414--1999)
Surface roughness	Ra6.3--Ra12.5
Major export markets	Japan
Main products	Wear-resistant parts, heat-resistant parts, mechanical parts, structural parts, pipe fittings.

Production Process

About Us

As a rising star in the industry of precision investment casting, Sunrise has been dedicated to the production, marketing, and R & D of quality precision casting products since its founding. Investment casting, or lost-wax casting, is one of the oldest metal forming process, dating back thousands of years, in which an expendable mold is made around a wax pattern that is to be burned away before molten metal is poured in.

It is a precision casting process used to create metal parts, especially complex, intricate or thin-wall castings from almost any alloy. JYG has been providing high-integrity, close-tolerance, near-net-shape precision casting parts for the customers of various industries around the world and gradually becoming a trusted name in the foundry industry.

The main material we use including stainless steel, duplex stainless steel, carbon steel, alloy steel, nickel base alloy, cobalt base alloy, ductile iron, gray iron, and so on. Sunrise's diverse portfolio of products consists of auto parts, machinery parts, marine hardware, construction hardware, pump & valves components...

Our Service

A lot of senior engineers from our Technical Department provide one stop service including product design, cost calculation, production process, inspection, issued part solution.

Quality always comes first, and we commit ourselves to making superior quality products with most competitive price.

FAQ

1. Q: How about your quality?

A: We have our own processional factory and workers, so believe that our products have advantage over our competitors

.

2. Q: What is the delivery time & transport time?

A: Usually our delivery time is about 15~20 working days for the standard products after the receiving the payment.

3. Q: Could you produce customized products according to your drawing or sample?

A: Yes, We have abundant experience in the production of non-standard products.
