

Ductile Cast Iron Agricultural Machinery Wheel Hub Casting

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC7635
- Certification: ISO9001,CE,SGS
- Model Number: 7635
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

Product Specification

- Part Name: Wheel Hub
- Application: Agricultural Machinery
- Material: Ductile Iron
- Process: Sand Casting
- Finish: Shot Blasting+Assembling
- Inspection: 100%

Product Description

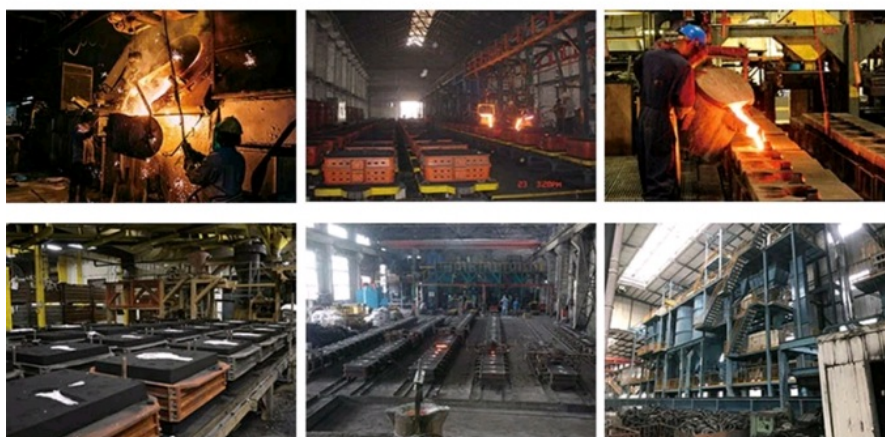

Ductile Cast Iron Agricultural Machinery Wheel Hub Casting

Product Details

Product Name	Agricultural Machinery Parts
Material	QT450-10
Color	Customized
Standard	65-45-12
Grade	T400-18,QT450-10,0T600-3QT700-2
Weight	4.0KG
Surface Treatment	Oxidation, Plating zinc, Painting, Hot galvanized, Electroplating, Sand blasting
Used	Agricultural

Production Process

WorkShop

Mechanical & Architectural Parts

Through sand casting, we're able to replicate simple and complex designs for mechanical and architectural parts with accuracy and efficiency. Fully machined castings can be quoted and are preferred, as we reject substandard parts.

Small to Medium Size Parts

Gearboxes and housings, All types of valve and strainer parts, bodies & housings, Gears, Pump parts, bodies & housings, Counterweights, Water fittings, Flanges, Flywheels & handwheels, Architectural products, Fence post parts, Marine anchors, Shipbuilding parts, Crankshafts, Propellers, Impellers, Pulleys and much more.

Large Parts

Equipment housings, Large parts for road trailers, Large pipe fittings: elbows, Ts, connectors, etc.

Wind power fittings & housings

Off-road equipment parts, Heavy machine bases and much more

Automotive Service Industry Parts

Automotive service industries rely on Deeco Metals for top-shelf sand cast parts. Some examples of auto and truck parts we manufacture via sand casting include:

Cylinder heads, Engine blocks, Engine exhaust manifolds, Transmission cases, Gearboxes, Brake drums, Wheel Housings, steering parts and many other parts

Quality Control

Quality Control is one of the most important process in production. We insist that 100% inspection before shipment and ensure parts without any flaws when sending out.

We have complete quality inspection facilities including mechanical testing, chemical analysis, tensile strength, hardness, spectrometer, ultrasonic testing, etc.

CMM

Tensile Test Machine

FAQ

How can I get some samples of Iron casting, cast ductile iron, cast grey iron part?

If you need, we will offer you samples for free, but new customers are expected to pay express charge.

Do you provide customized parts?

Yes, Customers give us drawings and we will manufacture accordingly.

Can you make castings based on our sample of Iron casting, cast ductile iron, cast grey iron and cast steel part?

Yes, we can make measurement based on your samples to make drawings.
