

Investment Casting Trailer Parts Container Door Lock Trailer Bar Latch Bottom Lug

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC0911
- Certification: ISO9001,CE,SGS
- Model Number: 0911
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

Product Specification

- Item Name: Latch Bottom Lug
- Application: Trailer Parts
- Material: Steel
- Process: Precision Casting
- Size: Customized
- Finish: Sandblasting
- QC: 100% Inspection

Product Description

Investment Casting Trailer Parts Container Door Lock Trailer Bar Latch Bottom Lug

Product Details

Investment casting (lost wax casting)	Stainless steel casting Alloy steel casting Carbon steel casting Bronze and Brass casting Aluminum casting
Machining	Drilling, Reaming and tapping CNC Turning machining CNC Milling machining Wire EDM
Heat treatment	Annealing Solution Normalizing Tempering Quenching Induction hardening Hardening and tempering
Surface treatment	Manual polishing Electro-polishing Electro-plating Power coating Tumbling

Production Process

PRODUCTION PROCESS

Mould

Waxes Injection

Starch Dipping

Shell Drying

Shell Baking

Steel Melting & Pouring

Shell Vibrating

Sand Blasting

Ready For Machining

Quality Control

CMM

Tensile Test Machine

FAQ

[Q1: MOQ?](#)

A: It is 1 ton if evaluated by weight or \$3000/lot if evaluated by order value. The prices quoted might vary with quantity, and we always declare MOQ in every quotation.

[Q2: Terms of Payment?](#)

A: For clients with a good credit rating, we usually take T/T after loading. For new clients whom we have no way to review their credit, we take deposits to start an order.

Q3: Do you require a down payment to start making casting molds or machining tools?

A: Yes. We will take a 50% down payment from new clients who don't have a credit rating here. The remaining molds and tooling fee can be T/T paid after samples are approved. But for most of our loyal clients, we don't need any down payments.

Q4: What happens if I put a down payment of some tooling fee, but you can't deliver qualified samples?

A: If the first batch samples PPAP are refused, we will improve it according to the deviations on the PPAP and resend the 2nd batch samples. If the 2nd batch still can't be accepted, your down payment will be refunded.

Q5: Delivery time?

A: For mass production orders, delivery time is usually 45 days.

Q6: What happens if I find defects when the order arrives?

A:--Please explain details of the defects using photos, P/O No, and Cases No. ,so that we can trace the heat No. from there. --Our QC team will respond within 48 hours and will take 8D procedure to improve it if necessary. --Our sales team will follow up with a compensation or replacement plan very soon.

Q7: If I only have an idea and no completed drawing for production, can you help with prototyping ?

A: Yes we can. We will also show you 3D drawings for discussion.
