

Precision Stainless Steel Casting Pipe Flange Plate Part

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC73523
- Certification: ISO9001,CE,SGS
- Model Number: 73523
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

Product Specification

- Item Name: Flange Plate
- Material: Stainless Steel
- Process: Precision Casting
- Weight: 0.5g-200kg
- Service: OEM/ODM
- Casting Tolerance: CT5-7
- Dimensions: Customized Sizes

Product Description

Precision Stainless Steel Casting Pipe Flange Plate Part

Product Details

Product Name	Pile Flange Plate
Material	Gray Iron, Ductile Iron, Stainless Steel, Steel, etc
Process	Casting, Deburring, Machining, Surface Treatment, Packing, all per request
Surface treatment:	polished, powder coating, nickel, chrome, zinc plating, Sand blasting, gold-plated, imitation gold-plated, etc., etc.
Product Weight	0.02kg to 100kg
Quality Control	ISO/TS16949:2002 and ISO9001:2008 system
Machining Equipment	casting machine, CNC, milling machine, drilling machine, numerical lathe, Shot blasting machine, Melting furnace, Sawing machine, The air compressor and so on
Standard	DIN, JIS, ASTM, AISI, BS, GB

Production Process

PRODUCTION PROCESS

The production process is shown in a 3x3 grid of images, each with a caption below it:

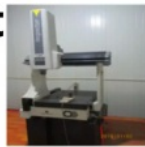

- Mould**: Shows a rack filled with various metal casting molds.
- Waxes Injection**: Shows a worker in a pink shirt operating a machine for wax injection.
- Starch Dipping**: Shows a worker dipping a mold into a liquid, with a close-up of the dipping process.
- Shell Drying**: Shows a rack of dried metal shells.
- Shell Baking**: Shows a worker operating a machine for shell baking.
- Steel Melting & Pouring**: Shows a worker pouring molten steel into a mold.
- Shell Vibrating**: Shows a worker operating a machine for shell vibrating.
- Sand Blasting**: Shows a rack of metal parts being sand blasted.
- Ready For Machining**: Shows a large industrial facility with various machinery and equipment.

FAQ

1.You are a factory or trade ?

We are factory

2.How can I get the quotation?

Drawing or sample

3.Sample and order deliver ?

Sample time: 30-50 days

Order time: 40-60 days, the accurate time depends on qty

4.What is your payment method?

Tooling:100% T/T advanced

Order time:50% deposit,50% against copy bill of lading

5.Which kind of file format you can read?

PDF, IGS, DWG, STEP

6.What is your surface treatment?

powder coating, sand blasting, painting, polishing, acid pickling, anodizing, enamel, zinc plating, hot-dipgalvanizing, electrophoresis, chrome plating.

7.What is your way of packing?

Normally Plywood case ,if you have special requirement pls let us know
