

## Precision Investment Casting Track Train Spare Parts

Our Product Introduction

for more products please visit us on [greycastironcasting.com](http://greycastironcasting.com)

### Basic Information

- Place of Origin: Mainland China
- Brand Name: NC6361
- Certification: ISO9001,CE,SGS
- Model Number: 6361
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

### Product Specification

- Material: Steel
- Process: Precision Investment Casting
- Surface: Machining Or Spay Painting
- Application: Track Train Parts
- Size: Customized
- Inspection: 100%

## Product Description

### Precision Investment Casting Track Train Spare Parts

#### Product Details

Material	Carbon steel, Alloy steel, stainless steel, cast iron, aluminum alloy, copper alloy
Process	Lost wax casting + cnc machining
Casting dimension tolerance	CT7-CT8
Casting surface roughness	Ra 12.5um
Casting weight range	0.1-100kg
Casting Size	Max linear size:1200mm, Max diameter size: 600mm
Machining Precision	Positioning accuracy 0.008mm, Rep. position. accuracy 0.006mm
Machining surface roughness	Ra0.8~6.3um
Max Travel Of Spindle	1800mmx850mmx700mm
Max Turning Diameter	1000mm
Material standard	GB, ASTM, AISI, DIN, BS, JIS, NF, AS, AAR.....
Surface treatment	KTL(E-coating), Zinc plating, Mirror Polishing, Sand Blasting, Acid pickling, black oxide, Wet Painting, Hot galvanizing, Powder coating, Nickel plating, Anti rust dip
Service available	OEM & ODM
Quality control	0 defects, 100% inspection before packing
Application	Train & railway, automobile & truck, construction machinery, forklift, agricultural machinery, shipbuilding, petroleum machinery, construction, valve and pumps, electric machine, hardware, power equipment and so on.

#### Production Process

#### Product Show

### About Us

we specialize in **casting of carbon steel, alloy steel, gray steel, stainless steel and ductile iron materials**. With an annual output capacity of **10000** metric tons, our products range from **100** grams to **600** kilograms in weight.

We also produce mechanical parts for worldwide purchasers and can manufacture as per customers' drawings. Until now, our products can be mainly put into the following categories: valve parts, parts for rail and subways, parts for mining machinery, automobile fittings, parts for hydraulic machinery, parts for project machinery and other parts.

### Application

### Quality Control

- 1) Checking the raw material after they reach our factory----- Incoming quality control ( IQC)
- 2) Checking the details before the production line operated
- 3) Have full inspection and routing inspection during mass production---In process quality control(IPQC)
- 4) Checking the goods after they are finished---- Final quality control(FQC)
- 5) Checking the goods after they are finished-----Outgoing quality control(OQC)

CMM

Tensile Test Machine

#### FAQ

**Q:**How will you control the quality?

**A:**We have quality control department, which will set up control plan before stating the project.

**Q:**how soon can i get a quotation?

**A:**Normally, we can get back you within 24 hours when getting your detailed 3d drawing and requirements.

.....

**Q:**Material we can do?

**A:**We are specialized in producing stainless steel, carbon steel, ductile iron and heat-resistant steel ; Nickel base, cobalt base, titanium alloy and other high-temperature alloy precision castings, as well as CNC deep processing production of various products.
