

Cast Grey Iron Sand Casting Parts

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC7323
- Certification: ISO9001,CE,SGS
- Model Number: 7323
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000-80,000 pcs monthly

Product Specification

- Material: Grey Iron
- Process: Iron Casting
- Size: Customized
- Finish: Sandblasting
- OEM: Available
- Inspection: 100%

Product Description

Cast Grey Iron Sand Casting Parts

Description

Cast iron parts are widely used in various industries, including automotive, construction, machinery, agriculture, and infrastructure. They are known for their excellent heat retention, high load-bearing capacity, good machinability, and cost-effectiveness. The casting process allows for the production of complex shapes and intricate designs, making cast iron parts suitable for a wide range of applications.

Iron casting parts are widely used in various industries due to the inherent properties of iron, such as its high strength, durability, and heat resistance.

Product Details

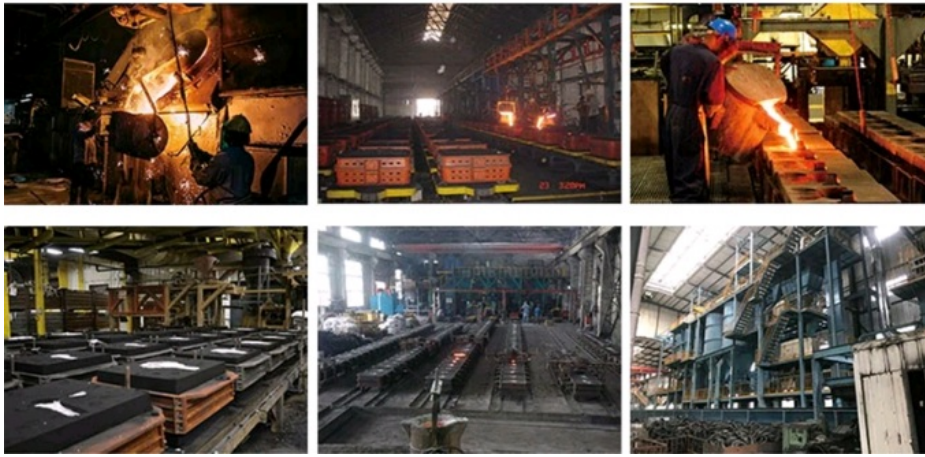

Material	Grey Iron
Blank Process	Sand casting , cast iron
Casting Tolerance	CT9-11 for iron casting
Machining Process	CNC Machining , DRILLING , Milling, boring, Tapping etc.
Machining Tolearnce	Up to IT7, Ra 0.8~3.2 , according to customer requirement
Surface Treatment	Dacromat Coating, Finish Painting
Package	Multiplayer wood box with big plastic bag inside
Lead Time	45 days for foundry ggg 42 ductile cast iron
Service	Supply metal parts solutions as per customer's requirements

Production Process

We have updated our production line. Our production process include Resin Sand Molding Line, Shell Molding Line,

Wet Green Sand Casting and Lost Wax Investment Casting Production Process.

WorkShop

Quality Control

Quality Control is one of the most important process in production. We insist that 100% inspection before shipment and ensure parts without any flaws when sending out.

We have complete quality inspection facilities including mechanical testing, chemical analysis, tensile strength, hardness, spectrometer, ultrasonic testing, etc.

CMM

Tensile Test Machine

FAQ

Q: Are you manufacturer?

A: Yes, we are a multispecialty factory, specializing in iron casting part.

Q:How about quality of products?

A: We strictly control every detail of the products. Each product is inspected before leaving factory.

Q:Do you accept customized orders?

A: Yes. With design team, OEM and ODM orders are highly welcome.

Q:Which transportation do you accept?

A: DHL, FedEx, EMS etc, as for your convenience.

Q: When will you deliver the goods?

A: About 30 days after payment. It also depends on the quantity and whether you need mould making.

Q:Can you accept mould making?

A: Yes.
