

Carbon Steel Lost Wax Casting Machinery Parts

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC9732
- Certification: ISO9001,CE,SGS
- Model Number: 9732
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000-80,000 pcs monthly

Product Specification

- Material: Carbon Steel
- Application: Machinery Part
- Process: Precision Investment Casting
- Size: As Per Drawing
- Tolerance: CT5-CT7
- Finish: Sandblasting

Product Description

Carbon Steel Lost Wax Casting Machinery Parts

Product Details

Model Number	OEM Customized
Surface treatment	Smooth,sandblasting,anodizing,electro plating
QC control	100% inspection on critical dismension
Mangement	Skilled workers and rich experienecd staff
Samples	Offer free samples
Packing	Packed in plastic bag with carton for outer packing or as your rquest
Application	Home appliance equipment,Auto parts,Industrial equipment,Electrical
Pricing	Factory direct price
Cost control	Most efficient production process design
Tolerance	+ - 0.005 mm
Equipment	CNC Machining Center,CNC lathe,CNC turning milling

About Us

Our company is a precision casting production and processing enterprises, the company's business scope: product design, dewaxing mold development, mold processing embryo parts, post-processing polishing, electroplating, finishing, packaging and a series of production

Two: The main service customers are in the military industry, automobile, mine, railway transportation, wind power, motor, furniture, household appliances, outdoor, beauty equipment, medical equipment and so on. .. accessories covering the needs of the entire hardware industry.

Customer notice: I mainly to the drawing sample order custom processing, do not sell spot, online quotation is not the final price, the specific unit price according to the size of the product specifications, structural difficulty, material Quantity after processing requirements and so on to determine.

Please confirm with customer service before placing the order, thank you very much for your trust and support!

Production Process

Quality Control

Quality Control is one of the most important process in production. We insist that 100% inspection before shipment and ensure parts without any flaws when sending out.

We have complete quality inspection facilities including mechanical testing, chemical analysis, tensile strength, hardness, spectrometer, ultrasonic testing, etc.

CMM

Tensile Test Machine

Why Choose Us

1. Our strong R & D and QC department can control the products to meet your strict requirement.
2. Different kinds of finish available, like anodized, power coating, painting, polishing, plating, etc.
3. Different dimensions according to the client's request.
4. Can provide various sizes and packing according to specific requirements.
5. We offer the engineer consultation to your design for production improvement and cost saving.
6. Customized and tailored orders are welcome.
7. High quality and delivery on time.
8. Long-term cooperation with international famous enterprises.

FAQ

How about your delivery time ?

15-20 days for glass fittings. 25-30 days for OEM fittings .

how about your payment terms?

T/T,Paypal,Visa

What's the output one month?

1000tons/Month.

Can you do the any metal products according to our design?

Yes, but the drawing or sample is needed

What surface treatment for the products your factory can offer?

Mirror, Chrome, Satin, Brushed ,Power coated, Electrolytic polishing
