

## Precision Stainless Steel Valve Part Casting

Our Product Introduction

for more products please visit us on [greycastironcasting.com](http://greycastironcasting.com)

### Basic Information

- Place of Origin: Mainland China
- Brand Name: NC9821
- Certification: ISO9001,CE,SGS
- Model Number: 9821
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000-80,000 pcs monthly

### Product Specification

- Item Name: Valve Part
- Material: Stainless Steel
- Process: Precision Investment Casting
- Size: As Per Drawing
- Finish: Sandblasting
- OEM: Available

## Product Description

### Precision Stainless Steel Valve Part Casting

#### Product Details

Material	Stainless Steel
Name	Precision Stainless Steel Valve Part Casting
Surface treatment	No cape burr sand hole
Color	Silver
Keyword	Stainless steel investment casting
Quality Control	100% Inspection
Tolerance	0.2mm
Machining Process	Lost Wax+CNC Mechining
Lead Time	15-35 Days
Surface	Perfect Appearance

#### Production Process

PRODUCTION PROCESS

**Mould**

**Waxes Injection**

**Starch Dipping**

**Shell Drying**

**Shell Baking**

**Steel Melting & Pouring**

**Shell Vibrating**

**Sand Blasting**

**Ready For Machining**

## Quality Control

Quality Control is one of the most important process in production. We insist that 100% inspection before shipment and ensure parts without any flaws when sending out.

We have complete quality inspection facilities including mechanical testing, chemical analysis, tensile strength, hardness, spectrometer, ultrasonic testing, etc.

CMM

Tensile Test Machine

## FAQ

Question 1: Do you have ready stock or only do custom order?

**Answer:** We mainly do custom order according to customers' designs or samples, and a few existing models can be directly ordered for production.

Question 2: What kind of materials can you do?

**Answer:** We can produce stainless steel, stainless iron, carbon steel, alloy steel, brass, cupronickel, copper and other materials needed by our customer.

Question 3: Which drawings and file formats can you accept?

**Answer:** We can accept a variety of drawing formats, but the main formats are as follow:  
2D, PDF and DWG, 3D, STL, IGES, STEP, Solidworks, etc...
