

Alloy Steel Precision Investment Casting Industrial Forklift Auto Parts

Our Product Introduction

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC0941
- Certification: ISO9001,CE,SGS
- Model Number: 0941
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000-80,000 pcs monthly

Product Specification

- Material: Alloy Steel
- Process: Precision Investment Casting
- Application: Forklift Parts
- Finish: Sandblasting
- Size: As Per Drawing
- OEM: Available

Product Description

Alloy Steel Precision Investment Casting Industrial Forklift Auto Parts

Product Details

material	Carbon steel, alloy steel, stainless steel
craft	Lost wax casting+machining
Dimensional tolerance of castings	CT7
Casting surface roughness	Ra 12.5um
Weight range	0.1-90kg
Casting size	Maximum linear dimension: 1200mm, maximum diameter: 600mm.
machining precision	The positioning accuracy is 0.008mm, and the repeated positioning accuracy is 0.006 mm.
surface roughness	Ra0.8~6.3um
Maximum spindle stroke	1800mmx850mmx700mm
Maximum cutting diameter	1000mm
Material execution mark	GB, ASTM, AISI, DIN, BS, JIS, NF, AS, AAR.....
surface treatment	Electrophoretic paint, galvanization, mirror polishing, sandblasting, pickling, black oxidation, painting, hot galvanizing, plastic spraying and nickel plating.
provide services	OEM & ODM
quality control	No defects, full inspection before packaging.

Production Process

About Us

Sunrise Foundry precision casting enterprise specializing in producing more than 100 kinds of materials such as precision casting, carbon steel, stainless steel and alloy steel. Since its establishment in 1996, the foundry has been making its mark in the industry by relying on perfect management means, strong technical strength, complete physical and chemical testing equipment and continuous creativity. The company has perfect investment casting production equipment, machining equipment and advanced physical and chemical analysis and testing equipment, which can meet the requirements of product and performance testing.
