

Gray Cast Iron Spools and Valve Pipe Fittings

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: Mainland China
- Brand Name: NC6842
- Certification: ISO9001,CE,SGS
- Model Number: 6842
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000-80,000 pcs monthly

Product Specification

- Material: Grey Iron
- Application: Valve Part
- Process: Iron Casting
- Finish: Sand Blasting, Machining, Painting
- Size: As Per Drawing
- OEM: Available

Product Description

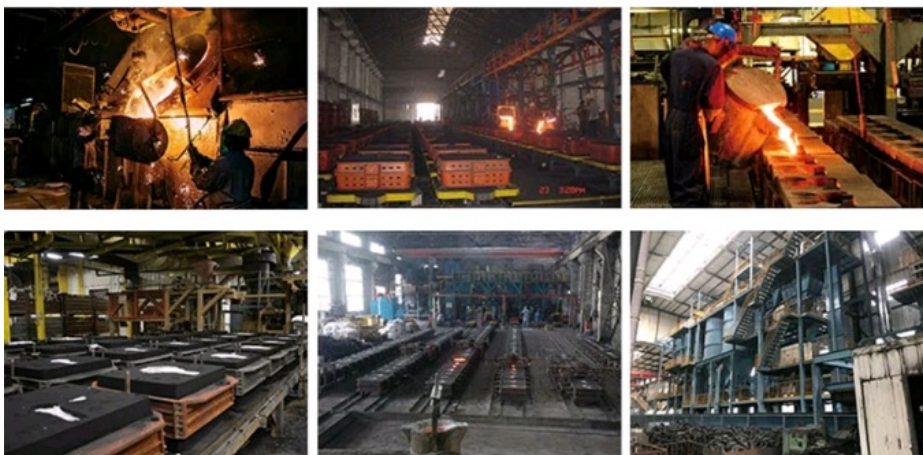

Gray Cast Iron Spools and Valve Pipe Fittings

Product Detail

Manufacture Process	Process/Secondary Maching/Surface Finish
Process	Sand casting/gravity casting/investment casting/lost wax casting
Secondary Machining	CNC turning/milling/drilling/grinding/assembly to Packing
Surface Finish	Chrome plating/sandblastin/painting/anodizing/powdercoating/electrophoresis etc
Tolerance	0.01mm
Maximum Ton	1800T (From 200T to 1800)
Application	Communication equipments/mechanical equipments/Auto Parts/Automation machine/medical device/industrial machine/automobile/electric appliance/and other industries etc

Tensile Test Machine

FAQ

How can we guarantee quality?

Strictly follow ISO 9001 quality management standards, and conduct full-process testing from raw materials entering the factory to finished products leaving the factory. Equipped with testing equipment such as spectrometers, tensile testing machines, and three-dimensional coordinate measuring machines to ensure that chemical composition, mechanical properties, and dimensional accuracy meet standards. Cooperating customers include well-known domestic and foreign automobile and agricultural machinery brands, and have won market trust with "zero batch quality accidents".

Why should you buy from us not from other suppliers?

With 25 years of experience in casting R&D, we are equipped with multiple automated production lines and master a variety of casting processes such as clay sand, lost foam, and coated sand. The technical team is experienced and the production process is mature, which can meet the customized needs of various high-grade and high-performance castings.
