

Formwork Accessories Anchor Rod Nut Plate Swivel Nut

Our Product Introduction

for more products please visit us on greycastironcasting.com

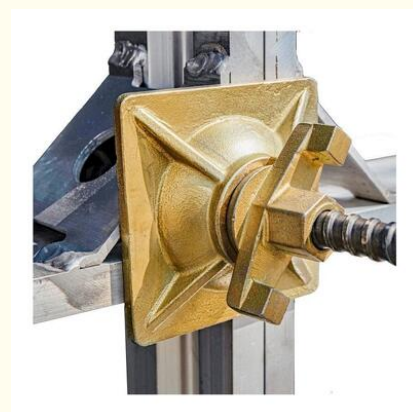

Basic Information

- Place of Origin: China
- Brand Name: NC6313
- Certification: ISO9001,CE,SGS
- Model Number: 6313
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs monthly

Product Specification

- Product Name: Swivel Nut
- Application: Formwork Accessories
- Material: Steel/iron
- Process: Shell Casting
- Surface: Galvanized
- Size: 115*115MM
- Weight: 1.06kg

Product Description

Formwork Accessories Anchor Rod Nut Plate Swivel Nut

Product Details

Material:	Steel:Q345/Q235/45# /Galvanized Steel
Standard :	DW10/12, DW15/17, DW21/23
Size:	D70/D80/D90/D100/D110/D120, OEM
Place of Origin:	Qingdao, China
Surface Treatment	Hot dip Galvanized/ Paint/ E-Galvanized
Features:	precision casting, forging,pressing
MOQ:	1000PCS
Delivery Time:	20-40days Depend on customer's specific order quantities
Supply Ability:	50-100ton/month
Service:	OEM

General Project Using Wing Nut

wing nut

Swivel Nut with square plate

Application

Formwork Wing Nut

We have years of experience in the manufacturing of casting FORMWROK WING NUT. This product used together with Steel Tie rod to fasten wall or column formwork.

Formwork Swivel Nut

The Formwork Swivel Wing Nut also named formwork swivel nut, formwork wing nut, formwork nut contre plate etc. This product used together with Steel Tie rod to fasten wall or column formwork. Our Formwork Swivel Wing Nut have different size, we can also produce this part according to client's request.

Formwork Anchor Nut

With DW15/17 tie rod, the formwork anchor nut can clamp formwork board closely when cement is injected.

Formwork Steel Cone

The formwork steel cone is perfectly manufactured using the pioneered technology and qualified grade raw material. The steel cone is highly accredited among the clients for its smooth finish and corrosion resistance features. It is mainly used for climbing formwork.

Formwork Water Stopper

The formwork water stopper also named formwork water stop, formwork water-stop, formwork waterstops, formwork water stop nut etc. It is an element of a concrete structure, intended to prevent the passages of fluids (such as water) when embedded in and running continuously...

Formwork Tie Rod

The formwork tie rod is also named formwork screw rod, formwork bar, formwork threaded rod etc. It is a component used to support and fix the formwork in an engineering building.
