

## Ductile Iron Sand Casting Water Pump Parts Cast Iron Submersible Pump

### Our Product Introduction

#### **Basic Information**

- Place of Origin: China
- Brand Name: NC9741
- Certification: ISO9001,CE,SGS
- Model Number: 9741
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs monthly

#### **Product Specification**

- Item Name: Water Pump
- Material: Ductile Iron
- Process: Iron Sand Casting
- Size: Customized
- Surface: Power Coating,EP,H.D.G EG
- Tolerance: +/-0.01

## Product Description

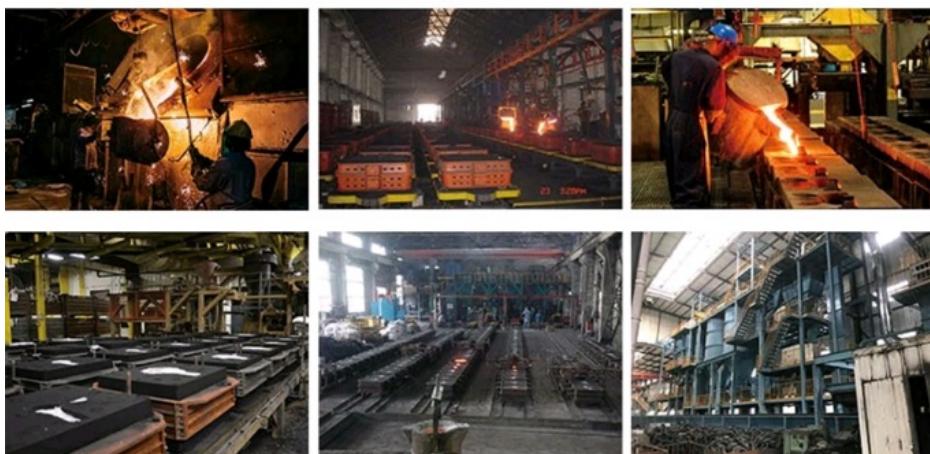

### Ductile Iron Sand Casting Water Pump Parts Cast Iron Submersible Pump

#### Product Details

Material	Gray Iron, Ductile Iron
Film Standard	Powder coating: 60-120 $\mu$ , Electrophoresis film: 12-25 $\mu$ .
Part Weight	from 3 g --- 20kgs
Surface Treatment	Mill-Finished, Powder Coating, Polishing, Brushing, etc.
Drawing format	IGES, STEP, AutoCAD, Solidworks, STL, PTC Creo, DWG, PDF, etc..
Deep Processing	CNC / Cutting / Punching / Checking / Tapping / Drilling / Milling
Application	industrial, consumer, food processing, aviation, seals/gaskets, lighting, packaging, filter, healthcare, telecommunications, mechanical, water treatment, appliance, recreation, lawn and garden, educational, oil and gas, government, construction, plumbing, surveillance, pumps, marine, motors, gears, RFID tags, electronics, and fasteners.

#### Production Process

#### About Us

Equipped with advanced production facilities and supported by an experienced engineering team, Seger Industrial specializes in a wide range of manufacturing processes, including sand casting, investment casting, die casting, gravity casting, forging, and CNC machining. Our in-house capabilities allow us to flexibly meet diverse technical requirements and deliver cost-effective solutions for both small and large production volumes. Quality is at the core of everything we do. Our professional quality control team conducts full-process quality monitoring, from raw material inspection and chemical analysis to dimensional inspection and final testing, ensuring every component meets customer specifications and international standards.

#### Our Advantages

One stop metal solution: No matter what design you have, we can provide you with the most cost-effective solution

Strict quality control: ISO certification and strict quality control for the whole production process

Customized Service: Tailored products based on client specifications and expert technical support throughout the design and manufacturing process.

Quick lead time and response: 24 hours quick response to ensure smooth, efficient and high-quality communication and reliable delivery timelines, ensuring timely completion of order

#### Quality Control

CMM

Tensile Test Machine

Q: Why our product have high quality?

A: Quality insurance(Assembly line production ,high standard and strict inspection requirements)

Q: Why our price is the most competitive price?

A: We directly work with original manufacture.
