

## Precision Casting Crusher Mantle and Concave for Mining

Our Product Introduction

for more products please visit us on [greycastironcasting.com](http://greycastironcasting.com)

### Basic Information

- Place of Origin: China
- Brand Name: NC2831
- Certification: ISO9001.CE,SGS
- Model Number: 2831
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs monthly

### Product Specification

- Item Name: Crusher Mantle
- Application: Mining Industry
- Process: Precision Casting
- Size: Customized
- Surface: Sand Blasting+ Painting
- Tolerance: 0.01-0.05

## Product Description

### Precision Casting Crusher Mantle and Concave for Mining

#### Product Details

|                          |  |
|--------------------------|--|
| <b>Materials</b>         | Aluminum, copper, brass, stainless steel, steel, iron, alloy, zinc etc.<br>Other Special Materials: Lucite/Nylon/wood/titanium/etc     |
| <b>Surface Treatment</b> | Anodizing, Brushing, Galvanized, laser engraving, Silk printing, polishing, Powder coating, etc  |
| <b>Testing equipment</b> | CMM; Tool microscope; multi-joint arm; Automatic height gauge; Manual height gauge; Dial gauge; Marble platform; Roughness measurement |
| <b>Processing</b>        | CNC Milling, CNC Turning, EDM, Lasering, etc   |
| <b>File Formats</b>      | stp(step), igs(iges), X.T; dwg, dxf, pdf   |
| <b>Service Project</b>   | To provide production design, production and technical service, etc  |
| <b>Quality Assurance</b> | ISO9001:2015, GB/T19001-2016   |

#### About Us

we are a leading metal casting manufacturer specializing in precision engineered solutions. With a facility spanning 12,000 square meters and over 85 skilled technicians, our capabilities include: Facilities & Capacity: ·2 automated casting production lines ·10 melting furnaces with advanced temperature control ·15 high-precision CNC machine tools ·12 die-casting machines (covering 80-500 tons clamping force) ·10 hydraulic presses with multi-axis capabilities ·Monthly production capacity exceeding 200 metric tons We maintain an in-house mold manufacturing facility with complete in-house mold design capabilities, enabling us to significantly reduce both your upfront tooling costs and lead times. All production processes are strictly controlled to meet your specifications, ensuring consistent dimensional accuracy and surface finish from prototype to mass production.

#### Production Process

#### Regarding product advantages.

1. Integrates diverse manufacturing processes including casting, forging, stamping, injection molding, and machining-into a cohesive production chain.
2. Precision Guaranteed: Machining and stamping processes ensure dimensional consistency and surface finish.
3. Cost Advantage: Economies of scale and process integration reduce unit costs, ensuring competitive pricing.
4. One-Stop Solution: End-to-end service from raw materials to final products minimizes clients supply chain management costs.
5. Keeps pace with the evolving trends in the automotive and manufacturing industries, ensuring our products and services remain at the forefront.

#### Quality Control

CMM

Tensile Test Machine

#### FAQ

Q: Do you support OEM service?

A: Yes we do.

Q: Can I have a sample order?

A: Yes we can provide the sample.

Q:What about the delivery time?

A:Generally we need about 15 days. Don't exceed 45 days based on the design and quantity.

Q: How can we guarantee quality?

A: We can guarantee the quality by the QC workers and 100% test before the shipment.

Q: How can I get the lowest price?

A: The price is based on quantity. The more quantity you order, the lower the price you will get. We are factory ourselves. The design is highly improved and production efficiency is very high so the cost is already very low.
