

Post-Tensioning Wedge 12.7mm Anchorage Wedge

Basic Information

- Place of Origin: China
- Brand Name: NC9832
- Certification: ISO9001,CE,SGS
- Model Number: 9832
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 80,000 pcs month

Product Specification

- Item Name: Anchorage Wedge
- Material: 20CrMnTi
- Size: 12.7
- Process: Machining
- Capacity: 1860Mpa
- Supply Ability: 100000 Set/Sets Per Month

Product Description

Post-Tensioning Wedge 12.7mm Anchorage Wedge

Product Details

The wedge is the core component of the prestressed anchoring system, typically consisting of 2-3 wedge-shaped steel blocks with outer cones and inner teeth. It is used in conjunction with the anchor plate, and through the wedge self-locking principle, firmly locks the tensioned steel strand to prevent it from retracting.

Features

Outer conical surface: matches the conical hole of the anchor plate (typically with a 1:12 taper) to create a wedging effect

Inner tooth surface: densely covered with helical teeth, increasing friction with the steel strand to prevent slippage

Split design: commonly seen in two-piece type (for single steel bar) or three-piece type (for steel strand)

▣ About Us

Sunrise Foundry is a professional Metal Foundry, located in Ningbo. We have been producing Gray Iron, Ductile Iron Castings and any other precision castings for more than 25 years.

We are dedicated to meet different requirements of various customers across the world, products are mainly involved Agricultural and Construction Machinery, Hydraulic, Mining industry, Municipal Products, some steel and stainless steel castings for Pumps and Valves, Pipe Fittings, etc.

Please feel free to contact us if you have any requests.
