

Post Tension Anchorage S3 Casting Flat for 12.7mm Strand

Our Product Introduction

for more products please visit us on greycastironcasting.com

Basic Information

- Place of Origin: China
- Brand Name: NC0832
- Certification: ISO9001,CE,SGS
- Model Number: 0832
- Minimum Order Quantity: 100 pcs
- Price: Can talk
- Packaging Details: Wooden Case
- Delivery Time: 30 days
- Payment Terms: T/T, L/C
- Supply Ability: 60,000 pcs monthly

Product Specification

- Item Name: Flat Anchor
- Material: Cast Iron
- Diameter: 12.7mm
- Application: Construction
- Size: Standard
- OEM: Available

Product Description

Post Tension Anchorage S3 Casting Flat for 12.7mm Strand

Product Details

The classic banana-shaped Wedge Block is the wedge seating component in the flat slab anchorage, which offers an economic and efficient solution to bonded post-tensioning in the construction industry. Conforming to the profile of the Flat Anchor, the Wedge Block is concave and self-aligning to allow the most effective loading of tensioning force to compress the concrete.

The Flat Anchor is the first of two components that make up the flat slab anchorage, which offers a cost-effective and efficient solution to bonded post-tensioning in the construction industry. Embedded in concrete, the Flat Anchor performs the vital function of anchoring the live end of a tendon and distributing stresses within the anchorage zone. The Flat Anchor is also designed to hold both the ducting and grout tube snugly.

Specification	BJM13, BJM15
Type	S3 and S5
Material of anchorage head	QT550-7
Material of anchor Plate	HT250
Standard	ISO,IAF,CNAS,CCPC,CRCC
Place of Origin	Tianjin, China

Quality Control

CMM

Tensile Test Machine

FAQ

Q: Are you trading company or manufacturer ?
